Paul,

I just spoke with Lyle Jessop, who says that he wants to cancel his Multicolored Green permit application with us at Dale's Pitchfork Springs site, since he doesn't want to take on the existing reclamation liability at the site. I asked him to send us a letter requesting we cancel his application, and that we would then send him back his check. FYI..

I think we all agree that either more bond (or reclamation down to the current \$6,800 held by DOGM) is needed. Lyle brought up the scenario of creating a community pit, and I told him that would be the BLM's call. Lyle has his trackhoe on the site, and he is available (and would like) to do work. I told him he doesn't have any obligation with us to do any reclamation.

Do we want to let Dale know now that bond and/or reclamation will be required, giving him an opportunity to use Lyle while he has his equipment at the site?

Peter
